Surprisingly enough the connection you have with your event space is similar to an ideal relationship. You can dress or configure the space however you desire without arguments or compromise. Why limit your match to just one choice? Let this guide or the staff at Visit Minneapolis North present you with options to help with your happily ever after.

Facility Tour Check List:

- ___ Have a good idea in mind of your estimated guest count.
- ___ What overall feeling do you want the event to have?
- ___ Make sure you find where the restrooms, coat rooms, and parking lots are relative to your space.
- ___ Find convenient spots where a band or DJ might set up.
- ___ Plan out where you would want your cocktail tables, gift, guest book and cake table to be set up.
- ___ Does the facility work with your general color theme and feel?
- ___ Take observation of the lighting or possible lighting options. Do they allow outside lighting to be brought in? Just a simple, light glow can change the mood of your event.
- ___ Tour a guest room or suite of the facility where you or your guests will stay. Experiencing amenities close to the comforts of home will make their stay more enjoyable.
- ___ Think like a guest at your event. What is the first impression your guests will have and does everything after that make sense and flow smoothly?
- ___ If the site provides the catering ask for a menu or see if they offer taste testing sessions.
- ___ Ask if audio visual equipment is extra or included with room. Also see if there is on-site assistance to set-up the equipment.
- ___ Ask Visit Minneapolis North to accompany you on your site tours.
